Personal Success Stories

I purchased the MOBILE Air Energiser one year ago, hoping to solve my daughter's bronchial asthma attacks and constant pain from scoliosis and arthritic hips, she was aged 10 then. We are now one year down the track and I have not had to purchase any medication for my daughter in that time. I find that amazing.

R.K., Gold coast, Australia.

For over 20 years I have suffered mild asthma. At times I have had to use a puffer. Since using the machine, practically from day one, my breathing has improved fantastically. My snoring disappeared.

For many years I have suffered swollen and painful joints in the hands, legs and feet – Arthritis. This has disappeared with the machine and there is no swelling at all in my finger joints.

J. J. Qld.

I am Asthmatic and have Cancer. Asthma is gone and my cancer is in remission. I have a general overall feeling of wellbeing and must attribute this to the Air Energiser.

J.McK., Brisbane

I was 50 years old, with breast cancer and tumours in the liver. 2 years of chemo drugs and chemotherapy caused Scleroderma Lupus, Raynauds Sydrome and 5 crushed fractures in the spine. After using the Air Energiser for 4 months I already noticed remarkable improvements. Now puffiness and oedema has gone, I have less pain, a strong heartbeat, feel healthier, have healthy looking skin and my head has now a thick cover of hair.

B.H., Brisbane

I have Paget's disease and suffer severe pain in my shoulder, neck and cranium and have difficulty in supporting my head. I found after using the machine the severe pain was reduced a great deal and I was able to turn my head from side to side and I am able to hold my head upright with no pain.

N.B. Brisbane

I have suffered with Arthritis in my hands and knees for more than 20 years. Towards the end of February 2002 I tried the GEOMED® Air Energiser and experienced unbelievable relief from pain in my hands and knees. Each day I use the machine for one hour. I stopped taking Celebrax tablets and I am still free from pain.

P.B., Sunshine Coast

I was bedridden with high fever, extreme muscular aches and pains and a sore throat. After 4 hours of treatment all symptoms of the virus were gone, apart from the runny nose.

T.V., Gold coast

Two years ago I collapsed with chronic fatigue syndrome and daily migraine headaches. After 4 days of breathing the air of the Air Energiser my headaches disappeared completely. Two weeks later the periods of extreme exhaustion were gone.

J.S., Brisbane

I am 58 years old, a migraine sufferer and have tension headaches weekly. I would regularly buy a packet of Disprin a week for my headaches. Instead of going to the tablets I would take myself off to bed and lay down with the Air Energiser. I have not needed the tablets in time I have been using the machine.

M.E. Qld.

I was 36 years old with 2 children, had suffered an enormous loss of confidence that left me with symptoms of Chronic Fatigue. I was also a smoker and loosing clumps of hair. I had blood in my stool, was very underweight, had no energy, no appetite and 2 to 3 migraines a fortnight. I had muscle waste. My system was very acidic. I had Candida, my menstruation would drag out over 10 days, my spleen was only operating at 10% of its capacity and I generally ached all over. I had constant sinus and recurring middle ear infections. I was forever tired, but sleeping more than 12 hours a day. My skin was pale, my breathing shallow, my head foggy and I was clinically depressed. I was unable to work full-time.

My naturopath advised me to use the GEOMED® Air Energiser

3 to 4 hours a day and after doing this for 3 months I started to feel much better. After 1 year I now have regained my health completely, gained 5 kilos, sleep for 7 hours each night and feel very rested. I have started my own business and work all day.

V.H., N.S.W.

A client had her breasts removed and the wound was infected for 12 months. After treatment externally and via inhalation with the Air Energiser over a 2-month period the wound and infection had totally healed.

Another client had had an operation on his leg 15 years ago and a germicidal ulcer that would not heal. After 3 months of treatments the wound had healed and there was no more pain. Medication was no longer needed.

I successfully treated a woman that had a bad infection all over her face and antibiotica could not help. After 3 weeks of daily 5-hour treatments the infection was all cleared up.

H.K., Gold coast

The inhalation and/or direct application of ionised air have been of great benefit to my clients who present with a diverse range of conditions, such as, but not limited to: sport related injuries, fatigue, asthma, arthritis, sinus, psoriasis and fungal or post operative infection. Other positive side effects of using the GEOMED® system include: improved sleep, decreased nicotine craving, increased energy levels, improvement in ones ability to cope with stress and last but not least, improved libido.

I personally believe that the GEOMED® Energiser is a fantastic compliment to any natural therapy treatment and have no hesitation in recommending it for professional and/or personal use.

L.P., North Qld.

I am a 65 years old asthma sufferer and for 45 years I have suffered from leg ulcers. I have also had suffered from Thrombosis and a black leg. After using the Air Energiser daily for 1 year my asthma is gone, my ulcer is nearly healed and black leg is getting pink.

M.R. West Australia

As a sufferer for six years with Ross River Fever I can now claim great relief from pain, exhaustion and general run down feeling due to my 2 hours per day with your machine. Another benefit has been the treatment of colds and flu. I have also received great relief and healing to wounds, cuts, etc. The healing is truly remarkable.

A. B. Sunshine Coast.

For years I have been suffering from Asthma. Pulmicort, Ventolin, Brycanyl an Tilade did not help. Your Air Energiser did! I do not need to use drugs any longer.

C.O'C., Brisbane

My continuing use of the GEOMED Air Energiser has given me freedom from joint pain due to rheumatoid arthritis, improved immune responses and a marked increase in energy and well-being, both mentally and physically.

M.F., Qld.

I am an 800 m track athlete. I have always been prone to colds and bronchitis. Bronchitis would occur mainly during winter, but also lingered during summer that was very detrimental to my athletic performances. Training and recovery have improved immensely, bronchitis has not returned, my airways are a lot stronger – the strongest they have ever been. I no longer have deep coughing and I feel healthier and stronger. Thanks to the Air Energiser I can now compete in the Australian championships.

D.S. Canberra

After nearly 5 years and over 20 surgeries following a “hit and run” accident I was struggling to heal skin and bone infections. After six weeks treatment with the Air Energiser the doctor gave me a clean bill of health.

B.N., Utah, U.S.A
